# ANEESH SHARMA

## SUMMARY

Computer Science recent graduate with a strong foundation in software engineering and programming principles across multiple platforms. Professional experience in product analysis and support in a fast-paced environment, seeking an entry-level opportunity as a software developer in an Agile product team.

## EXPERIENCE

**Product Analyst**
*CMiC | North York, Ontario | February 2022 - Current*

- Understanding client requirements and offering solutions consistent with their vision for prompt resolution maintaining a **satisfaction rating of over 95%.**
- **Documenting** functional, security, operations and performance requirements to improve tools, workflow and analytical processes.
- **Testing** system scenarios and duplicating issues by **collaborating with programming**, IT and DBA teams ensuring effective and efficient **troubleshooting**.
- Assisting in **Integrating CMIC's software** with CPM platforms like Textura, document management systems like DocuSign and many other including BlueBeam and Kofax
- Providing effective daily support with response within **15 minutes**, closing over **400 tickets** independently, resulting in a **20% increase in customer retention**.

## PROJECTS

**My Portfolio Website:**
*React.js, Material UI, HTML, CSS, JavaScript, Git*
- Developed and hosted a modern and responsive portfolio website to showcase projects.
- Employed various tools like **React Icons, Hooks and Router** using **React.js** and various components like a **navbar, hero section, cards and buttons** using **Material Ui** to enhance the functionality and ensure a consistent user-friendly interface.
- Used **Git** and **GitHub** for version control to ensure organized and maintainable codebase.

**Daily Greetings:**
*HTML, CSS, JavaScript, Ajax, jQuery, REST API*
- Created a personal organization app with dashboard functionality.
- Integrated multiple Open **REST APIs** to dynamically display real-time weather, inspirational quotes, and visually captivating backgrounds.
- Featured a user-friendly **to-do list**, enabling easy creation, viewing, and deletion of tasks.
- Utilized **jQuery** to simplify DOM manipulation providing faster, seamless user experience.
- Implemented efficient data caching using **Ajax** to minimize the overhead of repeated network calls and enhance performance.

**Book Realm**:
*Java, Swing, JDBC, SQL, XAMPP*
- Developed a robust **Java** Library Management System using **Window Builder library**.
- Implemented a **MySQL** database using **phpMyAdmin** and **XAMPP server**.
- Created a Signup and Login page to authenticate users and enable new user registration.
- Enabled the recording, retrieval, editing, and deletion of entries from the database.
- Incorporated **JDBC** for database connectivity and **Java Swing** for the GUI.

**Snake Game:**
*Java, Swing, AWT, JPanel*
- Built a classic 2D Snake Game in **Java** using **Swing framework**.
- Used **Java Abstract Window Toolkit** to design the Graphical User Interface of the app.
- Deployed the project as a **JAR file** to enhance code security and provide easy access.

## CONTACT

- (647) 326 6442
- aneeshsharmachd@gmail.com
- Toronto, ON, Canada

## LINKS

## EDUCATION

**BSC. Computer Science**
York University, Toronto, ON
*February 2022*

## SKILLS

- **Languages:** Java, PLSQL, HTML5, CSS3, JavaScript, Python, C, C++
- **Frameworks and Libraries:** Swing, Express.js, React.js, Angular, jQuery, Bootstrap, Material UI
- **Database:** MySQL, Mongo DB
- **Operating Systems:** Windows, Linux, MacOS, Android
- **Other Technologies:** SOAP/RESTful APIs, AWS, JUnit, XAMPP, Node.js, JSON, Git, Salesforce, JIRA, Confluence
- **Methodologies:** OOP, DSA, SDLC, Agile, Scrum, DevOps
- **Also Familiar with:** Flutter, Firebase, XML, Azure

## CERTIFICATIONS

- Advanced Full Stack Web Development - 2021
- Data Structures and Algorithms- 2020
- Core Java & Advance Java - 2019
- C & C++ - 2019
